when they walked out of the Theatre early last night they screamed with anguish every time a Democrat looked at them.

The Sutherland forces were shot so full of holes that a sieve would have looked like a sheet of chilled steel armor plate by comparison. If at least a third of those who fought for the cause that was lost don't proceed to get busy with long, sharp knives, then somebody will have to take back a whole lot of extremely vitriolic remarks. The victory of the Smoot-Kearns machine was sharp, clear-cut and decisive. From the standpoint of the machine, it left nothing whatever to be desired.

Twelve candidates for legislative positions were nominated, two for the state senate and ten for the house. The senatorial candidates both wear Smoot-Kearns collars a foot high. Eight of the ten house nominees were on the printed machine slate. The other two were not on the slate, but, as far as their friendliness to the machine is concerned, they might as well have been. One of them was A. L. Hamlin, an original Kearns man in the last legislature,

as their friendliness to the machine is concerned, they might as well have been. One of them was A. L. Hamlin, an original Kearns man in the last legislature, and the other was Charles Brink, a reputed Smoot man.

Never in the history of Utah politics has so much bitterness been manifested in a party convention. Never was there so uproariously disorderly a political gathering, never a chai man so utterly powerless to secure and maintain a semblance of decorum. The bitterness was not of the kind that finds sputtering expression in speeches on the floor. Rather was it of the sort that is vented in softly uttered curses, the sort that is nourished and nurtured until the balm of the ballot gives it surcease.

ALL WORE SMOOT COLLARS.

Every delegate to that convention knew when the sine die adjournment was taken last night that the election of the legislative ticket meant the elec-ion of Apostle Reed Smoot to the United States senate. Every delegate knew that Moritz and Williams, if elected to the state senate, would cast their bal-lots for Smoot next winter and for Kearns in 1905. Some of those delegates are determined that such a result shall not be accomplished if their votes can are determined that such a result shall not be accomplished it their voice and prevent it. That's the reason all the Democrats who have thus far been heard

from are smiling.

As was foreshadowed in The Herald of yesterday, the adjournment from Monday afternoon until yesterday morning gave the Smoot-Kearns combination a much-needed opportunity to pull itself together. And there is an interesting story which bears on this very point. It will be remembered that George A. Smith, one of the Smoot-Kearns leaders, made an effort to upset the order of business so that the legislative nominations could be made Monday night. Mr. Smith made a vigorous little speech in favor of his motion to this effect.

Immediately the Sutherland faction smelled a "mice." as the urchin would remark. Anything that George A. wanted they did not want, so they proceeded to talk down and vote down the proposition to hold a Monday night seasiom. That was exactly what Mr. Smith wanted and expected them to do. It was a shrewd political play that effected the desired result. During Monday night and the ante-convention hours of yesterday the Smoot-Kearns people caucused busily, and when the meeting was called to order they were ready to

SLATE WAS RUSHED THROUGH.

And the way they did it was a revelation to the gentlemen who had never been pushed into close proximity to a real machine. Brewer and Saloonkeeper Jake Moritz and W. N. Williams had no more trouble getting a big majority than if there had been no other candidates in the field. Critchiow and Benner X. Smith, the Sutherland nominees, had no chance from the time the First disict was called and Orson H. Hewlett, the independent candidate, didn't get

enough votes to make a respectable "scattering."

It was after the senatorial result had been announced that the supporters of Sutherland, with much lamentation and many evidences of dejection, gave up the struggle in reality, although, as a mere matter of form, they made a feeble effort to nominate their house slate. It was at this juncture, too, that Lindsay R. Rogers, floor manager for Sutherland, when asked how he liked the beating he was receiving, gave utterance to these chastened words:

beating he was receiving, gave utterance to these chastened words:

"This convention is making me a better Christian. I am learning that man proposes and the Lord disposes, and that the will of the Lord must be obeyed."

The senatorial nominations were interesting also in that they showed what extremely mismated bedfellows are sometimes found in politics. There stood the Reverend John T. Axton, former secretary of the Young Men's Christian association of Salt Lake City, and now a chaplain in the regular army, warmly espousing the cause of Jake Moritz, saloonkeeper, brewer and proprietor of the groggery where a man was shot to death in a saloon brawl only ten days ago. The Reverend Mr. Axton moved that the convention proceed to ballot for Jacob Moritz and W. N. Williams. Jacob Moritz and W. N. Williams.

AXTON STANDS BY KEARNS.

Mr. Axton's friends in the convention were willing to concede a good deal his sense of gratitude to Senator Kearns for securing him his chaplaincy. but many of them seemed to think that there was a limit even to the com

mendable virtue of gratitude.

Although the vote of the convention on the nominations for state senator was an evidence of the overwhelming majority for the Smoot-Kearns machine, it was not expected that the lower house slate would be rammed so successfully down the party's throat. The reason for this was that so many candidates were in the field it was thought enough personal and complimentary votes would prevent more than a very few nominations on the first ballot.

However, so well in hand were the machine rooters that eight of their ticket got through handsomely on the initial rollcall. Redman and Fraser were the fights that failed. The former was traded for Lewis M. Cannon and the latter for Charles Brink. The machine didn't care so very much, either, for by this time numbers of the opposition were trying to break through the crowd and get into the apostolic charlot. When, on the second ballot, the ticket was completed by the selection of Brink and Hamlin, Floor Manager Joe Lippman tore up his tally sheets with an expansive smile and walked out of the The-

It is a remarkable fact that not a single prominent Sutherland man could be found, after the convention adjourned, who was willing to say unequivocally that he would vote and work for the ticket. Mr. Sutherland himself will probably fall into line, but last night he declined to say anything whatever for publication. So did several others, and not few announced without hesitation that, if the Bernegratic convention prominers good clean men, they would heartily ocratic convention nominates good, clean men, they would heartily
